EP72: PMP EXAM PREPARATION

Duration: (academic hours)	Price: (Lt)
16	**1600,-**

PURPOSE:

This instructor facilitated course helps prepare the student for taking the Project Management Professional (PMP®) Certification Examination, which is independently administered by the Project Management Institute (PMI®). The content of the examination is based on PMI®'s Project Management Body of Knowledge (PMBOK® Guide). The primary objective of this course is to highlight the knowledge needed to pass the exam and thereby help project managers make the most effective use of their time in studying for the exam. Using the PMBOK® Guide, other PMI® publications, and additional reference material prepared specifically for this course, participants gain an understanding of the level of competency required to pass the exam. The student will also become familiar with the format of the exam and has some practice questions that simulate the actual test.

AUDIENCE:

This course is designed for Project Management professionals preparing to take the PMP® Certification Examination.

PREREQUISITES:

Experience as a project manager and/or successful completion of the core project management curriculum or equivalent training. Students must obtain and be familiar with the Project Management Institute's (PMI®) A Guide to the Project Management Body of Knowledge (PMBOK®) prior to attending this course in order to get the most out of the course. This document is available free at Project Management Institute Web site, www.pmi.org.
